MINING, DEFENCE AND COMMERCIAL APPLICATIONS

INTRODUCTION

DRIVEN BY PURPOSE. DEFINED BY EXCELLENCE.

At Bruder, we design and engineer more than just trailers — we create uncompromising solutions for those who demand the extraordinary. Whether through the lens of a digital nomad, individual exploration, or mission-critical deployment, Bruder Bespoke and Bruder Commercial reflect two expressions of the same guiding principle: to pursue perfection without limitation.

Bruder Bespoke is where your vision takes shape in its purest form. Every project is a personal collaboration, fusing your aspirations with our technical mastery to produce a creation that is entirely unique. No two builds are ever alike — because no two lives are.

Bruder Commercial answers the call of those operating in the harshest, most unforgiving environments on Earth. Trusted by defence, emergency services, humanitarian agencies, and remote industries, each trailer is tailored to meet the highest standard of operational excellence — with the resilience, capability, and innovation to perform where it matters most.

Born and built in Australia, every Bruder is a product of purposeful design, advanced manufacturing, and an unwavering commitment to quality. Whether you seek freedom, function, or both — Bruder delivers enduring performance with elevated precision.

MOBILE SITE OFFICES FOR CONSTRUCTION

- Suited for off-grid or powered sites
- Equipped with water generation and catchment capabilities for remote areas
- Tailored for various climatic conditions, from subfreezing to high altitudes

DEFENCE OPERATIONS

- Forward command centres designed to tow behind multiple vehicles
- Interconnectable units forming off-grid deployed centre

MINING & EXPLORATION

- Off-Grid Camps
- Mobile Geological Laboratory

HUMANITARIAN EFFORTS

- Command and communication hubs
- Medical centres Water generation and filtration systems
- On-site accommodations
- Power generation and storage solutions
- Mobile disaster communities

Bruder | Bespoke and Commercial

PROCESS

At Bruder, both our Bespoke and Commercial divisions exemplify the pinnacle of Australian craftsmanship — each creation is uniquely conceived and meticulously engineered from the ground up.

Bruder Bespoke offers a refined and seamless journey from initial concept to final completion, under the expert guidance of our accomplished designers and engineers. With a flexible, three-tiered approach to customisation, you are invited to tailor your build to suit your individual vision — from considered enhancements to entirely bespoke masterpieces. Each stage is conducted with absolute transparency and care, ensuring a truly effortless and rewarding experience.

Bruder Commercial stands as a trusted partner to organisations operating across the most demanding terrains and critical missions. Whether supporting military operations, humanitarian efforts, or pioneering expeditions, our trailers are purpose-built to deliver extraordinary durability, versatility, and performance — wherever duty calls.

Whether crafted for personal adventure or professional endeavour, every Bruder creation is a statement of excellence — designed without compromise.

Concept

Private consultation, tailored floor plans, design brief, and budget outline

Design Development

Detailed revisions, high-level renders, layout confirmation, and built slot secured

Design Finalisation

Final 3D model, internal renderings, colour and trim selections, and specification sign-off

Chassis and Body

Precision-engineered chassis, resin-bonded body pod, and fully integrated Bruder Suspension system

Fitout and Finishing

Interior cabinetry, electronics, and external fittings installed to exacting standards, followed by comprehensive systems testing

Handover

Complimentary local handover; global delivery options with personalised support

DESIGN TIER OVERVIEW

Every project is distinct—and so is the level of design it demands. To ensure the right balance of creative input, technical detail, and investment, we offer a flexible three-tier bespoke build structure. Each tier reflects the required design hours, level of development, and overall project complexity. Whether it's a simple enhancement, a refined layout, or a fully custom solution, our tiered approach provides clarity, transparency, and the ideal fit for your vision.

Tier One

Minor Customisations

- For small additions to existing EXP models
- Examples: jerry can storage, solar upgrades, fold-down tables, internal tweaks

Tier Two

Tier 2 – Moderate Customisation

- Reworks internal/external layout (no chassis/body changes)
- Includes structural adjustments, storage redesign, custom cabinetry, unique layouts

Tier Three

Tier 3 – Full Custom Build

- Complete bespoke trailer incl. chassis, body, interior and engineering
- Fully tailored design, systems integration, and advanced features

Your Bespoke or Commercial Build Journey Begins Here

Whether enhancing an existing model with tailored features, reconfiguring layouts to better suit operational or lifestyle needs, or developing a fully custom trailer from the ground up — every Bruder Build begins with your vision.

From bespoke recreational builds to specialised commercial solutions, our team works in close collaboration to deliver innovation, performance, and individuality. Our tiered structure provides clarity, flexibility, and a transparent process at every stage — regardless of complexity or scale. With expert guidance and an unwavering commitment to quality, we ensure your journey from concept to completion is seamless and rewarding.

We look forward to welcoming you to the Bruder family — and bringing your custom build to life.
